

KENT NIR (Near Infra-Red) Integrated System

- 100% designed for Green Pad Printing Automation
- No downtime for High Quality Wet-On-Wet Pad Print In-Line Process
- Instant drying for immediate packing

CURING IN SECONDS

For high efficiency industrial use

Secure built-in drying process

Designed exclusively for KENT automation

- Instant printing, drying and packing
- All-in-one PLC control interface
- Compact design
- Secure built-in drying process
- Precise temperature control system
- High energy cost savings :
 - Efficient cooling system
 - Reliable controller
 - Smart NIR radiation reflector
 - Optimised coverage for instant drying
- High repeatability
- High ink drying efficiency
- Cost effective
- Eco-friendly using KENT Green Pad Printing System
